

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

ORDER NO. 91-014  
NPDES NO. CA0028495

RESCISSION OF WASTE DISCHARGE REQUIREMENTS FOR:

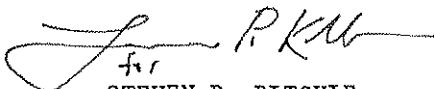

BELL MARINE COMPANY, INC.  
REDWOOD CITY, SAN MATEO COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region  
(hereinafter called the Board) finds that:

1. Bell Marine Company, Inc. (hereinafter referred to as Bell Marine) leases property located at the east end of Seaport Boulevard owned by Combustion Engineering, Inc. The property was previously owned by Ideal Basic Industries, Inc. Bell Marine uses the property for the purpose of sand reclamation.
2. The Board, on May 20, 1980, adopted Waste Discharge Requirements, NPDES Permit, Order No. 80-24, to Bell Marine and Ideal Basic Industries, Inc. The NPDES Permit expired on May 20, 1985. The requirements were for the discharge of sand transport water after clarification in a retention pond. The discharge from the retention pond was to Westpoint Slough of San Francisco Bay via the storm drain system.
3. By letters dated February 5, 1987 and July 2, 1987, Bell Marine stated that the waste stream described in Finding 2 was discontinued.
4. Board staff inspected the facility on December 5, 1990 to verify that the discharge was no longer taking place. Bell Marine currently uses a dry system to transport sand from the barges to the facility. The retention pond referred to in Order No. 80-24 has been dismantled.
5. The rescission of waste discharge requirements for this discharge is exempt from the provisions of Chapter 3 (commencing with Section 21000 of Division 13) of the Public Resources Code (CEQA) pursuant to Section 13389 of the California Water Code.
6. The Board has notified Bell Marine and interested agencies and persons of its intent to rescind waste discharge requirements, and has provided them with an opportunity for a public hearing and an opportunity to submit their written views and recommendations.
7. The Board, in a public meeting, heard and considered all comments pertaining to the rescission of waste discharge requirements for the above discharge.

IT IS HEREBY ORDERED that Order No. 80-24 is rescinded.

I, Steven R. Ritchie, Executive Officer do hereby certify the foregoing is a full, true and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region on February 20, 1991.

  
STEVEN R. RITCHIE  
Executive Officer

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

ORDER NO. 91-005

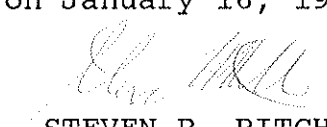

RESCINDING NPDES PERMIT NO. CA0028801 FOR  
CONTINENTAL MARITIME OF SAN FRANCISCO, INC.  
SAN FRANCISCO, SAN FRANCISCO COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region, finds that:

1. Continental Maritime of San Francisco, hereinafter called the discharger, has previously been issued a permit by this Board under the National Pollutant Discharge Elimination System (NPDES) in Order No. 85-86.
2. The discharger qualifies for a permit rescission because it has ceased its discharge to surface waters, subsequent to the sale of its floating dry dock and sale of the company's San Francisco operation.
3. The rescission of the permit for the discharge is exempt from the provisions of Chapter 3 (commencing with Section 21000 of Division 13) of the Public Resources Code (CEQA) pursuant to Section 13389 of the California Water Code.
4. The Board has notified the discharger and interested agencies and persons of its intent to rescind the waste discharge requirements, and has provided them with an opportunity for a public hearing and an opportunity to submit their written views and recommendations.
5. The Board in a public meeting heard and considered all comments pertaining to the rescission of waste discharge requirements for the discharger.

IT IS HEREBY ORDERED that the Regional Board Order cited in Finding 1 of this Order is rescinded.

I, Steven R. Ritchie, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on January 16, 1991.

  
STEVEN R. RITCHIE

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

ORDER NO. 90 - 158

RESCINDING WASTE DISCHARGE REQUIREMENTS FOR:

CALIFORNIA DEPARTMENT OF WATER RESOURCES,  
DELTA FARMS, ISLAND FARM, AND  
CALIFORNIA DEPARTMENT OF FISH AND GAME,  
SOLANO COUNTY

The California Regional Water Quality Control Board, San Francisco Bay Region (hereinafter called the Board), finds that:

1. The California Department of Water Resources operates the Suisun Marsh Salinity Control Gate complex (formerly known as Montezuma Slough Control Structure), a flow control facility designed to assist in controlling salinity levels in the Suisun Marsh. The facility is located near the eastern end of Montezuma Slough in the Suisun Marsh, in Solano County.
2. The Department of Water Resources submitted a Report of Waste Discharge dated October 15, 1985 for a project to dredge up to 116,000 cubic yards of material from Montezuma Slough to allow construction of the Suisun Marsh Salinity Control Gate complex, and dispose of the dredged material at four different sites on nearby lands owned by California Department of Water Resources, California Department of Fish and Game, and two private land owners, Delta Farms and Island Farm. (hereinafter collectively called the Dischargers).
3. On October 16, 1985 the Board adopted Order No. 85-116 prescribing Waste Discharge Requirements for the Dischargers, for both the dredging and dredge material disposal operations.
4. The Department of Water Resources submitted a memorandum, dated October 11, 1990, informing the Board that the dredging project has been completed and that the Suisun Marsh Salinity Control Gate complex was determined operational on November 22, 1989, and requesting that Order No. 85-116 be rescinded.
5. The Waste Discharge Requirements prescribed by Order No. 85-116 are no longer applicable or necessary, since the dredging and dredge disposal operations for which the Order was adopted have been completed.
6. This Order will rescind the Waste Discharge Requirements prescribed by Order No. 85-116.
7. Adoption of this Order is exempt from provisions of Chapter 3 (commencing with Section 21100) of Division 13 of the Public Resources Code (California Environmental Quality Act), pursuant to Section 13389 of the California Water Code.

8. The Dischargers and interested agencies and persons have been notified of the Board's intent to rescind waste discharge requirements and have been provided an opportunity for a public hearing and the opportunity to submit their written views and recommendations.
9. The Board, in a public meeting, heard and considered all comments pertaining to the discharge.

IT IS HEREBY ORDERED, pursuant to the provisions of Division 7 of the California Water Code and regulations adopted thereunder, and to the provisions of the Clean Water Act and regulations and guidelines adopted thereunder, that:

This Board's Order No. 85-116 is rescinded.

I, Steven R. Ritchie, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region on December 12, 1990.

  
STEVEN R. RITCHIE  
Executive Officer
